In her first adventure for British Intelligence Modesty Blaise with her loyal lieutenant, Willie Garvin, must foil a multi-million pound diamond heist. They travel from London to the South of France, across the Mediterranean to Cairo before battling, against impossible odds, a private army of professional killers. Peter O'Toole was supremely talented, a unique leading man and one of the most charismatic actors of his generation. Described by his friend Richard Burton as "the most original actor to come out of Britain since the war," O'Toole was also unpredictable, with a dangerous edge he brought to his roles and to his real life. With the help of exclusive interviews with colleagues and close friends, Robert Sellers' Peter O'Toole: The Definitive Biography paints the first complete picture of this complex and much-loved man. The book reveals what drove him to extremes, why he drank to excess for many years and hated authority, but it also describes a man who was fiercely intelligent, with a great sense of humor and huge energy. Giving full weight to his extraordinary career, this is an insightful, funny, and moving tribute to an iconic actor who made a monumental contribution to theater and cinema. This volume contains tributes to the broadcasting career of Peter O'Sullivan, from his friends, colleagues and admirers from the world of racing. It recalls racing occasions over the last 50 years, including every Grand National since the race was first televised in 1960 and the Derby victories of such legends as Sea Bird II, Sir Ivor and Nijinsky. But beyond the commentary there are other sides to Peter O'Sullivan which are recognized in this book: his reputation as an influential and informed racing journalist; his ownership of horses such as Be Friendly and Attivo; and his extensive work for equine charities. Wedding bells are sounding for Guido the Jinx, but as always he's in over his head and Modesty and Willie must fight to save him, and the world, from bio-terrorists in 'The Last Aristocrat'. Modesty and Willie are forced to become quarry in a big game hunt, playing for keeps in 'The Killing Game'. In their final tale 'The Zombie' the pair must rescue an old Network friend from a super-computer building cult. Celtic myths for modern people. This book introduces us to the rich and beautiful world of Irish mythology and mines it for wisdom we can use in everyday. In an increasingly materialistic world, ancient mythology is invaluable for understanding the issues, feelings and conflicts we've repressed either as individuals or as a culture - death, the transitory nature of life, the inevitability of separateness and the sacredness of the land. The idea behind this book is to provide the progressive guitarist with a comprehensive overview of chordal structures on the guitar fingerboard. Starting with triads, then working through 7th and 9th chords and further extensions, chord substitution relationships and practical examples over standard chord progression, the book presents a chordal concept based on logic rather than just memorized shapes, making it easier for today's guitarists to understand the complex chordal structures used in contemporary jazz. Poetry. Drawing episodes from the Kalevala, a Finnish epic, Peter O'Leary has created a poem of atmospheric intensity, full of elemental forces harnessed by supernatural craft. Line by line, it is composed of images and epithets that flicker into animation, condensed phrases that cascade into sequences of unfolding action. Throughout the quest, THE SAMPO returns us to the hazards of making, the power of singing, and the adventure of poetry. Politician Robert Sulzberger is accused of murder. His enemies want blood. Criminal defense attorney Tex Hunter is the only hope he has left. Robert Sulzberger appeared to have a perfect life—a respected position in the City Council, a lovely family, a house with all the trimmings—but behind the façade, his life was crumbling. Drawn into a world of crime and corruption, Sulzberger couldn't find a way out. He couldn't escape. And when he tried to walk away, he found himself behind bars. The trial captures the media's attention and the dark forces of politics are thrown into the limelight. As the son of a convicted serial killer, Tex Hunter knows how dangerous those forces can be. In a case full of twists and turns, Hunter must battle against deception, fraud, and cover-ups; risking everything in the most difficult case of his career. Can justice triumph against corruption? Or will the dark side of politics bury the truth forever? "God put me on this earth to raise sheer hell." Richard Burton "I was a sinner. I slugged some people. I hurt many people. And it's true, I never looked back to see the casualties." Richard Harris "Booze is the most outrageous of all drugs, which is why I chose it." Peter O'Toole "I don't have a drink problem. But if that was the case and doctors told me I had to stop I'd like to think I would be brave enough to drink myself into the grave." Oliver Reed This is the story of four of the greatest thespian boozers who ever walked - or staggered - off a film set into a pub. It's a story of drunken binges of near biblical proportions, parties and orgies, broken marriages, drugs, riots and wanton sexual conquests. And yet these piss artists were seemingly immune from the law. They got away with it because of their extraordinary

acting talent and because the public loved them. They were truly the last of a breed, the last of the movie hellraisers. For decades Peter O'Sullivan was one of the iconic sports commentators, providing the sound track for half a century of horseracing as he called home such legends of the sport as Arkle, Nijinsky, Red Rum and Desert Orchid. His rapid-fire commentary seemed to echo the sound of horses' hooves, and it was not long before he became known as 'The Voice of Racing'. But in addition to his legendary status as a TV personality, Peter O'Sullivan was also a notable journalist and much-admired writer, and it is a measure of his standing both within and beyond the world of racing that his compulsively readable autobiography *Calling the Horses*, first published in 1989 and reprinted eight times, reached the top of the SUNDAY TIMES non-fiction bestseller list. The most recent edition of *Calling the Horses* was published in 1994, and the twenty years since then have brought many fresh episodes in the ongoing Peter O'Sullivan story, including the last racing days of his great friend Lester Piggott in 1995, his commentary on the 'Bomb Scare' Grand National of 1997, and his retirement from the BBC. He also describes setting up the Sir Peter O'Sullivan Charitable Trust, which has raised over £3.5 million for animal welfare charities, as well as offering his appreciation of a new generation of racing heroes, including jockey AP McCoy, who has come to dominate jump racing in a manner unparalleled in any sport, and the wonder-horse Frankel. The heartening news for the legions of Peter O'Sullivan fans is that, despite his years, his enthusiasm for racing is undiminished, and so are the elegance, fluency and wit which infuse his writing style. This new and extensively updated edition of *Calling the Horses* is a very remarkable book by a very remarkable man.

Chromatic displays of the human form bathed in emotional landscapes of dark shadow and startling fields of filtered light define the paintings of artist Peter O'Neill. O'Neill exhibits a fondness for the contemplative female in unexpected and enigmatic poses and views of intimate situations with bathers, sleepers, and those who are lost in a poignant moment of reflection. As an observer, O'Neill watches his models and their natural movements so that his paintings do not look staged or photographic. "The work comes from everyday life," he says. He begins by talking to his models about their lives, and then he relates their stories in oil. Though O'Neill's work is consistent in style, his subject matter varies widely, from figure studies, to beach scenes and

fields of flowers, to ballet dancers and exotic masks, to portrayals of his travels to Italy. By combining the subject matter with his rich surface textures, he captures the ephemeral moments of life. As dangerous as she is desirable, Modesty Blaise, the cult creation of best-selling writer Peter O'Donnell, returns for three more devastating adventures! Features the classic stories 'The Young Mistress', 'Ivory Dancer' and 'Our Friend Maude', written by Peter O'Donnell and beautifully illustrated by Enric Badia Romero! Never HIGHLIGHT a Book Again! The rugged team of Modesty Blaise and Willie Garvin take on impossible odds, pitted against Simon Delicta, the man with a taste for death, and Swordmaster Wenzel in a duel to the death. As the adventure unfolds, travelling from London to Panama before reaching the depths of the Sahara desert, the pair will need all their killing skills to survive. Born to a vagabond bookie working the U.K's racetracks, Peter O'Toole became "the most notorious sailor in Her Majesty's Royal Navy" and then worked as a street vendor, a paparazzo, a newsman, and a steeplejack before drifting into the London theatre. After his spectacular success in David Lean's four-hour epic, Lawrence of Arabia, he announced, "I've arrived! Ignore me at your peril!" He then went on to be nominated for seven Oscars before emerging as the Crown Prince of the British Theatre. An orgiastic hellraiser, he starred in week-long binges and sex orgies of near Biblical proportions, bedding everyone from Elizabeth Taylor to Princess Margaret, who relentlessly pursued him. Mercurial acting talent on the screen was combined with a lethal off-screen life that "would have landed most blokes in jail" (his words)." First published in 2002. Routledge is an imprint of Taylor & Francis, an informa company. The truth is one step closer... Defending a lawyer in court is never easy, but when a divorce attorney is charged with the murder of a private investigator, the pressure builds to breaking point. Joe Fielding wasn't an ordinary investigator. He wasn't clean, he wasn't honorable, and he wasn't truthful-he was one of the most corrupt, ruthless, and fraudulent investigators to ever walk the streets of Chicago. Fielding's employment at a family law firm was littered with criminal activity, and his employers were determined to see his secrets go to the grave with him. To discover the truth, criminal defense attorney Tex Hunter must fight against convicted felons, corrupt lawyers, and ruthless businessmen, but each step brings him closer to violence. Fielding's reputation was built on cruelty and dishonesty, corruption and manipulation, and his previous employers would continue to protect their secrets, even if it cost a defense lawyer his life. Investigating years of testimonies and decades of criminal activity, the case forces Hunter into a corner-to chase the truth, to uncover the evidence, he must risk his own life to expose them all... A comprehension of Paul's understanding of the law and justification has been a perennial problem for historians and theologians. The need for further clarity has given rise to this collection of essays by an international list of esteemed scholars who seek, in the first of two volumes, to illuminate the complexities of the Judaism of Jesus' (and Paul's) day. Was it a legalistic religion that taught one could be justified before God by obeying law? Was it even one religion, or was it a collection of traditions with some similarities and many dissimilarities?A second volume is forthcoming which will further this discussion among scholars through an evaluation of the paradoxes of Paul. A charming story of a time long-gone and the struggles of a young man with his first teaching assignment in a village at the back of beyond. Every kid wants to be respected. Peter is no different. But when he is disregarded by his single mother and bullied by some boys on the bus, he lacks the confidence to even respect himself. He finds solace in his interest for bugs but needs some human attention. Will a brother, retired school teacher or even George Washington Carver be able to help him on his journey toward respect? Through interviews with close friends and colleagues, a biography of the talented, charismatic British-Irish actor discusses his dislike of authority,

what drove him to extremes, and why he drank so excessively for years. Small towns keep the darkest secrets... In Southern Illinois, defense attorney Tex Hunter agrees to defend a young man against a murder charge. With an entire city against him, Hunter realizes there's more to the case than he's been told. To discover the truth, Hunter must fight against corrupt police, power-hungry politicians, dishonest judges, and small-town secrets. Digging deep into the mysteries of the area, Hunter uncovers information that will shock everyone. But if Hunter can't expose the truth in court, an innocent man might be punished... while the real killer watches his every move. *Natural Justice* is the sixth book in this high-stakes legal thriller series. It can be read as a standalone novel or part of the heart-pounding Tex Hunter Legal Thriller series. Covering his time as a drama student at RADA, the author writes about his student days in London in the 1950s, a time which coincided with significant moments in British theatre. Among the recollections are seeing Richard Burton in "King John" at the Old Vic, remembers Dame Sybil Thorndyke giving him elocution lessons and describing ballet lessons shared with fellow actor, Albert Finney. A charming story of a time long-gone and the struggles of a young man with his first teaching assignment in a village at the back of beyond. There was a bed, a timber floor, thin tar paper on one side for privacy from the nearby road but nothing else. The flimsiest of 'walls', no pegs or nails to hang even a hat, no door, no rug for cold morning bare feet, no bookshelf for a voracious reader, no bedside cupboard for a lamp or a glass of water, no light source - just a bed and a suitcase for the next two years. In 1960, newly minted teacher Peter O'Brien started work as the only teacher at a bush school in Weabonga, two days' travel by train and mail car from Armidale. Peter was only 20 years old and had never before lived away from his home in Sydney. He'd had some teaching experience, but nothing to prepare him for the monumental challenge of being solely responsible for the education of 18 students, ranging in age from 5 to 15 years old. With few lesson plans, scant teaching materials, a wide range of curious minds and ages to prepare for, Peter was daunted by the enormity of the task ahead. Because of Weabonga's remoteness, the students were already at a disadvantage, but they were keen and receptive and had been blessed with an enthusiastic and committed teacher. Indeed it was the children and their thirst for learning who kept Peter afloat during the early days of shockingly inadequate living conditions, a deficient diet and the terrible loneliness he felt being isolated so far from family, friends and his burgeoning romance. *Bush School* is an engaging and fascinating memoir of how a young man rose to a challenge most would shrink from today. It tells movingly of the resilience and spirit of children, the importance of learning and the transformative power of teaching. 'So many wonderful books, plays and films centre upon the importance of a dedicated and inspiring teacher in the lives of the very young. The reason is simple. Such teachers, and they are indeed rare, have a lifetime influence upon their pupils. I believe Peter O'Brien is such a teacher. Given *Bush School* chronicles the earliest days of Peter's teaching career, it's also interesting to note his memoir has 'a coming of age' aspect. A coming of age for Peter himself as he discovers so much about who he is in the remote community to which he's been assigned. Delightfully composed, *Bush School* has many voices. There is the evocation of a bygone era; there is historical and sociological comment; there is a strong sense of humanity; and above all, there is charm and warmth on every page.' - Judy Nunn, author of *Khaki Town* 'O'Brien's beautiful memoir *Bush School* takes us back to a time when students said 'good-oh' and teachers were well-respected within their communities. We watch as O'Brien becomes a teacher; placing the children and their learning at the centre of his work whilst courageously navigating the isolated life of a remote town during the early sixties. O'Brien's story is told with great integrity. He explores the unique challenges and opportunities faced by small schools as well as delving into the grand endeavour that is "teaching". *Bush School* reminds us that teaching is an act of service and that teachers - then and now - are indispensable.' - Gabbie Stroud, author of *Teacher Born in a mission in China*, Lucy Waring now finds herself with 15 small children to feed. How she tackles this task gets her thrown into the grim prison of Chengfu, where she meets a man about to die. He asks her a cryptic riddle, and its mystery echoes through all that befalls Lucy in the months that follow, even when she is brought to England, trying to make a new life with the Gresham family. Unused to English ways, she is constantly in disgrace and is soon involved in the long and bitter feud between the Greshams and the family who live across the valley in the house called Moonrakers. In England Lucy discovers danger, romance, heartache, and mystery as strange events lead her to doubt her own senses. It is only when Lucy returns to China that she finds the answers to the mysteries of her past. It is there, at the moment when all seems lost, that she finally finds where her heart belongs. Powerful and diligent, Peter O'Reilly played a role in shaping British Columbia in the last quarter of the

1800s. An immigrant from Ireland, O'Reilly landed in Victoria during the height of the Cariboo Gold Rush and was appointed gold commissioner for BC. He held the position of county court judge, and sorted settler and Native disputes, despite often having to function as an assistant land commissioner. From 1880 to 1898, O'Reilly was the federally appointed BC Indian Reserve Lands commissioner. Many of his decisions about the location and size of Native reserves continue to be challenged in the courts to this day. In Peter O'Reilly, we also see the private side of this industrious man, a man who enjoyed the vast wilderness for years, on horseback or by foot, on snowshoes or in a canoe. He had many acquaintances and two close friends, Sir Matthew Baillie Begbie and Edward Dewdney. He lived with his cherished wife, Caroline Trutch O'Reilly, and their children at Point Ellice House in Victoria, BC.
