This book presents contributions of intelligent management theories and models for a more effective management of sustainable business in competitive, profitable and socially responsible organizations. It communicates the latest developments and thinking on the sustainable and intelligent management subjects worldwide, increasing the knowledge and effectiveness of all those involved in these areas whether in the profit or non-profit sectors or in the public or private sectors. This textbook guides the reader on how to undertake high-quality literature reviews, from traditional narrative to protocol-driven reviews. The guidance covers a broad range of purposes, disciplines and research paradigms. Whether the literature review is part of a research project, a doctoral study, dissertation or a stand-alone study, the book offers approaches, methods, tools, tips and guidelines to produce more effective literature reviews in an efficient manner. The numerous examples drawn from an array of subject areas, such as economics, healthcare, education, medicine, psychology, software engineering amongst others. This makes it worthwhile for a wide range of studies and for reviewing evidence-based interventions, policies, practices and treatments. The attention given to presenting, reporting and publishing literature reviews. With the additional clarity brought about by explanatory tables and graphs, this textbook is a 'must-have' for all students, researchers, academics and practitioners at any stage of their project or career engaged with literature. In addition, citizens, policymakers and practitioners will benefit from the guidance with better insight into how literature reviews could and should have been conducted. Veterinarian Technician's Large Animal Daily Reference Guide is an indispensable resource in daily clinical practice. Covering all aspects of a veterinarian

technician's responsibilities in the care of large animals, the book provides fast access to practical information, aiding newly trained skilled large animal technicians alike in performing their daily tasks.
