Prepared by government experts from all 46 member states  
of the Council of Europe, this publication seeks to help  
promote a better understanding of the relationship between  
human fights and environmental issues by setting out details  
of relevant case-law of the European Court of Human Rights  
and the principles upon which these judgements are based.  
These include: the right to life (Article 2), the right to respect  
for family life (Article 8), the right to a fair trial and access to  
a court (Article 6) and the right to receive and impart  
information and ideas (Article 10) of the European  
Convention on Human Rights.
