Maternal Child Nursing Care - E-Book Jul 03 2020 Master the essentials of maternity and pediatric nursing with this comprehensive, all-in-one text! *Maternal Child Nursing Care, 7th Edition* covers the issues and concerns of women during their childbearing years and children during their developing years. It uses a family-centered, problem-solving approach to patient care, with guidelines supported by evidence-based practice. New to this edition is an emphasis on clinical judgment skills and a new chapter on children with integumentary dysfunction. Written by a team of experts led by Shannon E. Perry and Marilyn J. Hockenberry, this book provides the accurate information you need to succeed in the classroom, the clinical setting, and on the Next Generation NCLEX-RN® examination. Focus on the family throughout the text emphasizes the influence of the entire family in health and illness. Expert authors of the market-leading maternity and pediatric nursing textbooks combine to ensure delivery of the most accurate, up-to-date content. Information on victims of sexual abuse as parents and human trafficking helps prepare students to handle these delicate issues. Nursing Alerts highlight critical information that could lead to deteriorating or emergency situations. Guidelines boxes outline nursing procedures in an easy-to-follow format.

Evidence-Based Practice boxes include findings from recent clinical studies. Emergency Treatment boxes describe the signs and symptoms of emergency situations and provide step-by-step interventions. Atraumatic Care boxes teach students how to manage pain and provide competent care to pediatric patients with the least amount of physical or psychological stress. Community Focus boxes emphasize community issues, provide resources and guidance, and illustrate nursing care in a variety of settings. Patient Teaching boxes highlight important information nurses need to communicate to patients and families. Cultural Considerations boxes describe beliefs and practices relating to pregnancy, labor and birth, parenting, and women's health. Family-Centered Care boxes draw attention to the needs or concerns of families that students should consider to provide family-centered care.

A Parent's Guide to the Late Preterm Infant May 01 2020
There are more than 300,000 infants born between 34 and 37 weeks' gestation each year in the United States. Even though these late preterm infants are born just a few weeks early, they often behave more like a preterm infant than a term infant. This unique comprehensive book offers families of late preterm infants a much needed resource. It contains:
1. A discussion about the hospital environment, care providers, and monitoring that may be needed; 2. A detailed account of medical issues that late preterm infants and their parents might encounter during their baby's hospital stay; 3. Pictures that help the reader have a clearer understanding of these medical issues; and 4. A dictionary with an explanation of commonly used medical terms.
