*how to use the ls command to list files and  
directories on linux* Sep 27 2022 web 3 dec 2019  
the ls command is probably the first command most  
linux users encounter those of us who hang around  
the command line use it day in and day out  
without even thinking about it that might explain  
why there is more to this command than most users  
realize we list files with it to see what s in a  
directory
