The 2013 IB HL Economics syllabus change introduced Paper 3, an essentially calculations-based assessment. This development challenged teachers and students alike, as few Paper 3 practice resources have been available. This is furthermore an area of the syllabus where, as in Mathematics, practice is fundamentally important in developing the skills and confidence for needed for success. Paul Hoang's latest publication therefore represents an invaluable resource in helping students to prepare for the examination challenges they face. For many candidates the mix of words, theory and numbers in Paper 3 questions can be overwhelming, if they have not developed easy familiarity throughout their course. With clear layout and content that beautifully mirrors IB examination questions, this resource is the one we have all been waiting for. I absolutely recommend it as a 'must have' for all those who are preparing for the HL Economics examination. It is a core resource invaluable to students and teachers alike.
