Ron, her maniacal and probably AI-controlled boss, is screaming at his ministers, raging about a highly visible and clearly embarrassing incident that just occurred in his domain. A public talk titled "The World Has Ended; Millions Now Living May Never Die" was first delivered on February 24, 1918 in Los Angeles, California. Five weeks later, on March 31, 1918 the title was changed to indicate absolute certainty: "The World Has Ended; Millions Now Living Will Never Die." The public talk continued to be delivered under that same title until 1925. The material was published as this book in 1920. This book may be of interest to students of human psychology and

students of religious movements, particularly millennialist apocalyptic, "prophetic" religious movements. Book Award Finalist for Urban Design Group Awards 2020 Human settlements are the result of a mix of self-organisation and planning. Planners are fighting a losing battle to impose order on chaotic systems. Connections between the process of urban growth and the fields of complexity theory are of increasing importance to planners and urbanists alike; the idea that cities are emergent structures created not by design but from the interplay of relatively simple rules and forces over time. From the the small Tuscan hill town to the megacities of Asia: the struggle between the planned and the unplanned is universal. Based on years of international research, *Climax City* is a critical exploration of the growth of cities and masterplanning. Challenging the idea that the city can be entirely planned on paper, this book implores you to work with chaos when planning cities. Beautifully illustrated with striking hand-drawn plans of global cities, this is a vital and accessible contribution to urban theory and planning. It's the perfect title for practitioners and academics across planning and urban design looking to make sense out of chaos. This dystopian classic is 'exciting, relevant and thought-provoking' (Stephen King). When a group of schoolboys are stranded on a desert island, what could go wrong? The second in the trilogy, this work captures the British empire at its dazzling climax-the diamond jubilee of Queen Victoria in 1897, celebrated as a festival of imperial strength, unity and splendor. Portrays the British at the height of their vigor, imposing their traditions and tastes on peoples of the world. A classic battle history of an underpublished war. Winter is an Earth-like planet with two major differences: conditions are semi arctic even at the warmest time of the year, and the inhabitants are all of the same sex. Tucked away in a remote corner of the universe, they have no knowledge of space travel or of life beyond their own world. And when a strange envoy from space brings news of a vast coalition of planets which they are invited to join, he is met with fear, mistrust and disbelief. . . . 'The Left Hand of Darkness' is a groundbreaking work of feminist science fiction, an imaginative masterpiece which poses challenging questions about sexuality, sexism and the organisation of society. NOW A MAJOR TV DRAMA Late one summer evening, antiquarian bookseller Adam Snow is returning from a client visit when he takes a wrong turn. He stumbles across a derelict Edwardian house, and compelled by curiosity, approaches the door. Standing before the entrance, he feels the unmistakable sensation of a small cold hand creeping into his own, 'as if a child had taken hold of it'. At first he is merely puzzled by the odd incident but then begins to suffer attacks of

fear and panic, and is visited by nightmares. He is determined to learn more 'about the house and its once-magnificent, now overgrown garden but when he does so, he receives further, increasingly sinister, visits from the small hand. Since its first publication in 2000, *Baptism and the Baptists* has become the definitive work on the subject. It examines the theology and practice of believers' baptism among twentieth-century Baptists associated with the Baptist Union of Great Britain, and identifies the major influences which have led to its development. In the nineteenth and early twentieth century, the majority of Baptists concentrated predominantly on the mode and subjects of baptism (immersion and believers), understanding the rite merely as an ordinance--the believer's personal profession of faith in Christ. However, in continuity with a tradition of Baptists going back as far as the first Baptists in the second and third decades of the seventeenth century, there were also a significant number of ministers and scholars who saw the inadequacy of this view of baptism both biblically and theologically. This sacramental view developed and grew throughout the twentieth century, and influenced a resurgence of baptismal sacramentalism in the early twenty-first century among Baptists not just in Britain, but also in North America, Europe, and further afield. In a world where fantasy is reality, you ARE the dragon. A detailed examination of the passages central to the debate about Paul's christology and his view of Jewish Law. From meticulous exegesis makes some striking theological and historical conclusions. Finally, a GPS system for screenwriters! In the West, many know of the pioneering work of Jane Goodall, whose studies of these apes at Gombe in Tanzania are justly famous. Less well-known, but equally important, are the studies carried out by Toshisada Nishida on the eastern shore of Lake Tanganyika. Comparison between the two sites yields both notable similarities and startling contrasts. Nishida has written a comprehensive synthesis of his work on the behaviour and ecology of the chimpanzees of the Mahale Mountains.

With topics ranging from individual development to population-specific behavioural patterns, it reveals the complexity of social life, from male struggles for dominant status to female travails in raising offspring. Richly illustrated, the author blends anecdotes with powerful data to explore the fascinating world of the chimpanzees of the lakeshore. THE TIME IS AT HAND The Book of Revelation was written in 66 A.D. to reveal that the time had come for the fulfillment of Christ's prophecies regarding those who condemned Him to death. The destruction of Jerusalem, which He had foretold, was delayed 36 years while He called out an elect remnant of 144,000 Hebrews to give the gospel to other nations. The great tribulation occurred 66-70 A.D. There will be no other comparable to it. The falling away of the churches began in the Fourth Century, and culminated 500 years later with that man of sin setting himself up in Rome like a god on the earth. The first beast of Revelation 13 was the Roman Empire, the second was religious Rome. The Antichrist came in the Seventh Century, not "against Christ," but as the one who took His place, as in "anti-climax." Muhammad's influence has been a thousand times greater than all other antichrists put together: past, present and future. There is no mention of the restoration of Israel as a nation in the New Testament, so present-day Israel has no prophetic significance. Christ will return when He has planted a witness
