**The Wisdom of the World** Jun 28 2020 When the ancient Greeks looked up into the heavens, they saw not just sun and moon, stars and planets, but a complete, coherent universe, a model of the Good that could serve as a guide to a better life. How this view of the world came to be, and how we lost it (or turned away from it) on the way to becoming modern, make for a fascinating story, told in a highly accessible manner by Rémi Brague in this wide-ranging cultural history. Before the Greeks, people thought human action was required to maintain the order of the universe and so conducted rituals and sacrifices to renew and restore it. But beginning with the Hellenic Age, the universe came to be seen as existing quite apart from human action and possessing, therefore, a kind of wisdom that humanity did not. Wearing his remarkable erudition lightly, Brague traces the many ways this universal wisdom has been interpreted over the centuries, from the time of ancient Egypt to the modern era. Socratic and Muslim philosophers, Christian theologians and Jewish Kabbalists all believed that questions about the workings of the world and the meaning of life were closely intertwined and that an understanding of cosmology was crucial to making sense of human ethics. Exploring the fate of this concept in the modern day, Brague shows how modernity stripped the universe of its sacred and philosophical wisdom, transforming it into an ethically indifferent entity that no longer serves as a model for human morality. Encyclopedic and yet intimate, *The Wisdom of the World* offers the best sort of history: broad, learned, and completely compelling. Brague opens a window onto systems of thought radically different from our own.

**The Commercial Revolution of the Middle Ages, 950-1350** Nov 21 2019 Roman and barbarian precedents The growth of self-centered agriculture The take-off of the commercial revolution The uneven diffusion of commercialization Between crafts and industry The response of the agricultural society.

*Toward a Global Middle Ages* Sep 12 2021 This important and overdue book examines illuminated manuscripts and other book arts of the Global Middle Ages. Illuminated manuscripts and illustrated or decorated books—like today's museums—preserve a rich array of information about how premodern peoples conceived of and perceived the world, its many cultures, and everyone's place in it. Often a Eurocentric field of study, manuscripts are prisms through which we can glimpse the interconnected global history of humanity. *Toward a Global Middle Ages* is the first publication to examine decorated books produced across the globe during the period traditionally known as medieval. Through essays and case studies, the volume's multidisciplinary contributors expand the historiography, chronology, and geography of manuscript studies to embrace a diversity of objects, individuals, narratives, and materials from Africa, Asia, Australasia, and the Americas—an approach that both engages with and contributes to the emerging field of scholarly inquiry known as the Global Middle Ages. Featuring more than 160 color illustrations, this wide-ranging and provocative collection is intended for all who are interested in engaging in a dialogue about how books and other textual objects contributed to world-making strategies from about 400 to 1600.

*The Origins of the Middle Ages* Jan 24 2020

**The Book of Nature and Humanity in the Middle Ages and the Renaissance** Sep 24 2022 Some modern commentators welcome the alleged approach of the 'post-human' era as a liberation from the constraints of essentialist identity. Others lament it as a harbinger of the death of the soul. But both groups will find it instructive to consider that the nature of humanity has always been a contested topic. The chapters collected here suggest that the emergence of the modern idea of the human was at least as fraught a process as its putative demise. David Hawkes and Richard G. Newhauser have selected a wide array of contributions for this volume. Renowned scholars from several disciplines have produced a series of fascinating essays, which concentrate on the relation between humanity and nature as it was understood in the medieval and early modern periods. The issues they examine range from poaching to flatulence, from Aztec animal symbolism to Jesus's grandmother, from tulips to the Trinity. Some chapters examine a wide variety of popular texts, from the bloody legend of Robert the Devil to the sinister magic of the Anglo-Saxon 'wen charm,' from Lutheran Books of Nature to Emperor Maximilian's wedding. The result is a book that raises intriguing implications for the modern struggle over the meaning of mankind.

*Music of the Middle Ages: Volume 1* Feb 17 2022 A unique history of the vast repertory of monophonic music of the Middle Ages.

*The Middle Ages* Aug 31 2020 Johannes Fried gives us a Middle Ages full of people encountering the unfamiliar, grappling with new ideas, redefining power, and interacting with different societies—an era characterized by continuities and discontinuities, the vibrant expansion of knowledge, and an understanding of the growing complexity of the world.

**Magic in the Middle Ages** Oct 01 2020 A fascinating study of natural and demonic magic within the broad context of medieval culture.

**The Experience of Beauty in the Middle Ages** Sep 19 2019 This book articulates a new approach to medieval aesthetic values, emphasizing the sensory and emotional basis of all medieval arts, their love of play and fine craftsmanship, of puzzles, and of strong contrasts. It offers an understanding of medieval literature and art that is rooted in the perceptions and feelings of ordinary life.

*The Illuminated Books of the Middle Ages* Dec 15 2021

**India Traders of the Middle Ages** Nov 26 2022 The annotated and translated letters of 11th-12th century traders of the Jewish Indian Ocean, found in the Cairo Geniza, provide fascinating information on commerce between the Far East, Yemen and the Mediterranean, medieval material, social, and spiritual civilization among Jews and Arabs, and Judeo-Arabic.

*The Illuminated Books of the Middle Ages* Oct 21 2019

*View of the State of Europe During the Middle Ages* Jul 30 2020

*The Idea of the Book in the Middle Ages* Oct 25 2022 This book assess the relationship of literature to various other cultural forms in the Middle Ages. Jesse M. Gellrich uses the insights of such thinkers as Levi-Strauss, Foucault, Barthes, and Derrida to explore the continuity of medieval ideas about speaking, writing, and texts.

*The Making of the Middle Ages* Jan 04 2021 Liverpool's contribution to the modern construction of the middle ages is here recognized for the first time. From the eighteenth century to the twenty-first, scholars from Merseyside have made pioneering advances in fields as diverse as Celtic philology and manuscript collecting, each in their own way contributing to our steadily deepening understanding of the real middle ages, and to the widening use to which images of the middle ages have been put. Merseyside presents in microcosm the different building blocks of the modern middle ages. In addition to its local focus, this book therefore also examines some of the most significant aspects of the modern study of the middle ages in the round. It offers fresh perspectives, from leading experts in their fields, on medieval Celtic languages, on English poetic literature, on heroes, on pageantry, on mystery plays, and on the effect of nationalist perspectives on the writing of medieval history. Tracing the burgeoning appreciation, in Merseyside and beyond, of the period in which the city was founded, this collection of essays is a fitting commemoration of Liverpool's octocentenary.

**Paris in the Middle Ages** Dec 23 2019 Centering on the streets of this metropolis, Simone Roux peers into the secret lives of people within their homes and the public world of affairs and entertainments, populating the book with laborers, shop keepers, magistrates, thieves, and strollers.

**Men of Learning in Europe at the End of the Middle Ages** Nov 02 2020 Medievalists prefer that we not view the Middle Ages in a static frame but rather a dynamic one. They want us to be aware of the shifts and changes that characterize the period. In *Men of Learning in Europe at the Close of the Middle Ages*, Jacques Verger provides us with an important look at the evolution of social classes and an essential chapter in the study of cultural history. By the end of the Middle Ages, societal categories which were adequate for earlier periods-- "those who pray, those who fight, those who work" --no longer allowed for the growing complexity of Western society. One of the key new groups which emerged was that of learned men. Through their intellectual competency and their ability to build a social and political utility, these men came to be important figures. The fledgling modern state found them to be helpful allies and favored their ascension among the traditional elite. Thus, they contributed not only to the advancement of knowledge, making the Renaissance period possible, but also to the reshaping of late medieval political structure. Combining cultural, social, and political history, *Men of Learning in Europe at the Close of the Middle Ages* measures the influence acquired by certain disciplines--in particular religious, literary, and legal--in the organization of European society. Anyone interested in the Middle Ages or intellectual history will want to read this book.

**Little Me** Dec 27 2022 The hilarious, heart-warming and tear-jerking memoir from one of Britain's best-loved comedians and actors, Matt Lucas

**The Rebirth of Europe, a Study of the Middle Age** Dec 03 2020

*History of the middle and working classes, with a popular exposition of the economical and political principles which have influenced the ... condition of the industrious orders. Also an appendix of prices, etc* May 08 2021

**Khwad?yn?mag The Middle Persian Book of Kings** Aug 23 2022 In Khwad?yn?mag. The Middle Persian Book of Kings Jaakko Hämeen-Anttila analyses the lost sixth-century historiographical work of the Sasanians, its lost Arabic translations, and the sources of Firdaws?'s Sh?hn?me.

*From Justinian to Branimir* Mar 26 2020 From Justinian to Branimir explores the social and political transformation of Dalmatia between c.500 and c.900 AD. The collapse of Dalmatia in the early seventh century is traditionally ascribed to the Slav migrations. However, more recent scholarship has started to challenge this theory, looking instead for alternative explanations for the cultural and social changes that took place during this period. Drawing on both written and material sources, this study utilizes recent archaeological and historical research to provide a new historical narrative of this little-known period in the history of the Balkan peninsula. This book will appeal to scholars and students interested in Byzantine and early medieval Europe, the Balkans and the Mediterranean. It is important reading for both historians and archaeologists.

**The Black Middle Ages** Apr 19 2022 The Black Middle Ages examines the influence of medieval studies on African-American thought. Matthew X. Vernon focuses on nineteenth century uses of medieval texts to structure racial identity, but also considers the flexibility of medieval narratives more broadly in the medieval period, twentieth and twenty-first centuries. This book engages disparate discourses to reassess African-American positionalities in time and space. Utilizing a transhistorical framework, Vernon reflects on medieval studies as a discipline built upon a contended

set of ideologies and acts of imaginative appropriation visible within source texts and their later mobilizations.

*History of the Middle and Working Classes* Aug 11 2021

*The Annotated Book in the Early Middle Ages* Mar 18 2022 Annotations in modern books are a phenomenon that often causes disapproval: we are not supposed to draw, doodle, underline, or highlight in our books. In many medieval manuscripts, however, the pages are filled with annotations around the text and in-between the lines. In some cases, a 'white space' around the text is even laid out to contain extra text, pricked and ruled for the purpose. Just as footnotes are an approved and standard part of the modern academic book, so the flyleaves, margins, and interlinear spaces of many medieval manuscripts are an invitation to add extra text. This volume focuses on annotation in the early medieval period. In treating manuscripts as mirrors of the medieval minds who created them - reflecting their interests, their choices, their practices - the essays explore a number of key topics. Are there certain genres in which the making of annotations seems to be more appropriate or common than in others? Are there genres in which annotating is 'not done'? Are there certain monastic centres in which annotating practices flourish, and from which they spread? The volume thus investigates whether early medieval annotators used specific techniques, perhaps identifiable with their scribal communities or schools. It explores what annotators actually sought to accomplish with their annotations, and how the techniques of annotating developed over time and per region.

*Western Society and the Church in the Middle Ages* Nov 14 2021 The concept of an ordered human society, both religious and secular, as an expression of a divinely ordered universe was central to medieval thought. In the West the political and religious community were inextricably bound together, and because the Church was so intimately involved with the world, any history of it must take into account the development of medieval society. Professor Southern's book covers the period from the eighth to the sixteenth century. After sketching the main features of each medieval age, he deals in greater detail with the Papacy, the relations between Rome and her rival Constantinople, the bishops and archbishops, and the various religious orders, providing in all a superb history of the period.

**The Epistemology of the Monstrous in the Middle Ages** Jul 10 2021 This book studies the phenomena of monsters and marvels from the time of Pliny the Elder through the 14th century.

**The Middle Ages** May 28 2020 The aim of this book has been to tell the story of the Middle Ages so as to bring out the most characteristic features of the period, and to emphasize those things in medieval life which have the most significance for us today. Examines how Christianity spread out across the world, building a new civilization on the remnants of the Roman Empire.

*Food in the Middle Ages* Jan 16 2022 First Published in 1995. Routledge is an imprint of Taylor & Francis, an informa company.

**Developing Children's Critical Thinking through Picturebooks** Jun 21 2022 This accessible text will show students and class teachers how they can enable their pupils to become critical thinkers through the medium of picturebooks. By introducing children to the notion of making-meaning together through thinking and discussion, Roche focuses on carefully chosen picturebooks as a stimulus for discussion, and shows how they can constitute an accessible, multimodal resource for adding to literacy skills, while at the same time developing in pupils a far wider range of literary understanding. By allowing time for thinking about and digesting the pictures as well as the text, and then engaging pupils in classroom discussion, this book highlights a powerful means of developing children's oral language ability, critical thinking, and visual literacy, while also acting as a rich resource for developing children's literary understanding. Throughout, Roche provides rich data and examples from real classroom practice. This book also provides an overview of recent international research on doing 'interactive read alouds', on what critical literacy means, on what critical thinking means and on picturebooks themselves. Lecturers on teacher education courses for early years or primary levels, classroom teachers, pre-service education students, and all those interested in promoting critical engagement and dialogue about literature will find this an engaging and very insightful text.

*Early Times* Oct 13 2021 Knights in shining armor, wandering minstrels and jugglers, elegantly robed lords and ladies, gentle friars and learned monks - tournaments and village fairs, crenellated castles, soaring gothic cathedrals - the Middle Ages was certainly a colorful and exciting period. But it was also a dangerous time of war, superstition, and pestilence - a time when chaos and ignorance threatened to destroy European society and would have done so, were it not for the power of the Catholic Church. Meet the heroes and heroines of medieval Europe and discover through them the many facets of the kaleidoscopic world in which they lived.

*The Waning of the Middle Ages* Feb 05 2021

*A History of the Credit Market in Central Europe* Aug 19 2019 This is the first comprehensive study of loans and debts in Central European countries in the Middle Ages and Early Modern Period. It outlines the issues of debts and loans in the Czech lands, Poland and Hungary, with respect to the influence of Austria and Germany. It focuses on the role of loans and debts in medieval and early modern society, credit markets in these countries, the mechanism of lending and borrowing, forms of credit, availability of loans, frequency of credits dealings, range of lending business, and last, but not least, the financial relationships inside the social classes and between them. The research presented in the book is based on a wide range of resources including credit contracts and agreements, evidence of loans and debts of courts, accounting of nobility, towns, churches and guilds, merchant diaries and Jewish registers, as well as other financial records. It covers a wide range of historical disciplines including economic and financial history, social history, the history of economic thought as well as the history of everyday life. It also contains a wealth of case studies, which offer, for the first time in English, a comprehensive and representative sample of the most up-to-date Central European research on the history of loans and debts and serves as a basis for a comparison with the other parts of Europe during the same period. The book is designed primarily for postgraduates, researchers and academics in financial, economic and historical sciences but will also be a valuable resource for students of business schools.

**The Christian World of the Middle Ages** Jun 09 2021 This account of the Christian world, East and West, from AD 312 - 1500 challenges the usual Euro-centric view of medieval Christianity. The author reconstructs the faith and heritage of medieval Christendom, revealing its extraordinary impact in both great empires and tiny enclaves.

**The Great Pilgrimage of the Middle Ages** Mar 06 2021

**A Short History of the Middle Ages** Jul 22 2022 Inleiding in de geschiedenis van de Middeleeuwen.

**The Wall in the Middle of the Book** May 20 2022 A foolish knight is certain that his side of the wall is the safe side in this clever, amusingly meta picture book by the acclaimed creator of It's Only Stanley There's a wall in the middle of the book, and our hero--a young knight--is sure that the wall protects his side of the book from the dangers of the other side--like an angry tiger and giant rhino, and worst of all, an ogre who would gobble him up in a second! But our knight doesn't seem to notice the crocodile and growing sea of water that are emerging on his side. When he's almost over his head and calling for help, who will come to his rescue? An individual who isn't as dangerous as the knight thought--from a side of the book that might just have some positive things to offer after all!

*Bang in the Middle* Feb 23 2020 A book to put the Midlands back on the map.

*Reading the Middle Ages* Apr 26 2020 Reading the Middle Ages is well-known for providing thematic and geographical diversity, clear and informative introductions, and close integration with A Short History of the Middle Ages.
