The International Convention for the Prevention of Pollution from Ships, 1973 (MARPOL Convention), is concerned with preserving the marine environment through the prevention of pollution by oil and other harmful substances and the minimization of accidental discharge of such substances. Its technical content is laid out in six Annexes, the first five of which were in the 1973 Convention, as modified by the 1978 Protocol, and cover pollution of the sea by oil, by noxious liquid substances in bulk, by harmful substances in packaged form, by sewage from ships and by garbage from ships. Annex VI was adopted by the 1997 Protocol and covers air pollution from ships For the first time, this unique text brings together all private international maritime law conventions alongside expert commentary and analysis. Truly global in approach, the book covers each of the nineteen conventions currently in force, all scrutinised by this internationally-acclaimed author. It also examines important maritime conventions not yet fully ratified, including the topical Rotterdam Rules. This comprehensive resource provides a thorough treatment of both wet and dry shipping treaties, combining breadth of coverage with depth of analysis. In this third volume, the author covers the key conventions dealing with pollution and safety at sea. In particular, the author covers the following instruments: International Convention relating to Intervention on the High Seas in Cases of Oil Pollution Casualties, 1969 and Protocol of 1973 International Convention on Oil Pollution Preparedness, Response and Co-operation, 1990 (OPRC Convention) with its Protocol of 2000 (OPRC-HNS Protocol) International Convention for the prevention of pollution from ships (MARPOL) and protocol of 1978 International Convention for the Safety of life at sea, 1974 (SOLAS) Convention on the prevention of marine pollution by dumping of wastes and other matters, 1972 as amended by the protocol of 1996 International Convention for the control and management of ship's ballast water and sediments, 2004 International Convention on Standards of Training, Certification and Watchkeeping for Seafarers, 1978 Nairobi International Convention on removal of wrecks 18 may 2007 Port state control: the Paris Memorandum of Understanding and the European Directive 2009/16 EC European Traffic Monitoring and Information System International Convention on Civil Liability for Oil Pollution Damage, 1992 (CLC 1992) International Convention on the Establishment of an International Fund for Compensation for Oil Pollution Damage, 1992, as amended by its Protocol of 2000 and its Supplementary Protocol of 2003 (the Fund Convention) International Convention on Civil Liability for Bunker Oil Pollution Damage, 2001 International Convention on Liability and Compensation for Damage in Connection with Carriage of Hazardous and Noxious Substances by Sea, 1996 This book is an indispensable reference for maritime lawyers, academics and students of maritime law worldwide. Kanako is excited to be transferring into a new all-girl mission school. She's looking for her ideal yuri partner. When she meets Mariya Shidou she thinks she's found the one. But wait! Mariya is a cross-dressing sadistic boy and now Kanako is forced to keep his secret! But that's not all. To complicate

things she's drawing the attention of the most popular girl in school and, at the same time, catching the wrath of all the other girls. Will Kanako ever find the cute girl of her dreams? Or will she die of sexual-frustration nosebleeds? Love is a complicated affair for Kanako and the girls of Maria Holic. Special Omnibus Edition Volume 2 contains previously released volumes 4-6. Enjoy Maria Holic all over again, or for the first time, in this new consolidated edition! The Plantation of Ulster by Scots in the 17th century meant the migration and settlement of thousands of Scots in Ireland during that period. Most settlers were from the Scottish Lowlands, but some were Highlanders. Although Presbyterians were in the majority, a sizable minority were Episcopalians and a few Roman Catholics. Although most settled in Ulster, a number settled further south, including in Dublin. The emphasis of Scottish emigration changed in the 18th century, from destinations such as Ireland and the Netherlands, to North America and the Caribbean. This century also saw the rise of emigration from Ireland, notably the Scots-Irish to America. The consolidation is designed to meet the requirements of family historians, genealogists, and academics as it identifies what is available to researchers and where it is located. Many of the entries are based on primary sources. The references identify the publication, volume and folio number, or the archive, and the documentary details. Research was based in sources in the National Records of Scotland, the National Library of Scotland, the Public Record Office of Northern Ireland, the National Archives of the U.K., and the University of St. Andrews. Sources include wills, testaments, deeds, sasines, port books, rent rolls, family papers, burgess rolls, apprenticeship records, estate papers, church records, monumental inscriptions, university registers, contemporary journals, newspapers, government records, and various publications. Contains the consolidated versions of the treaty on European Union and of the treaty establishing the European Community, incorporating the amendments made by the Treaty of Atehns, signed on 16 April 2003. It also reproduces all the protocols annexed to those treaties, as amended by the 2003 act of accession. This is the new edition of the first consolidated ISBD that was published in 2007. The first years of usage have led to interesting and useful corrections and additions. Many cataloguers and practitioners worldwide will welcome this updated first class tool, which is useful and applicable for descriptions of bibliographic resources in any type of catalogue. "Of all the international conventions dealing with maritime safety, the most important is the International Convention for the Safety of Life at Sea, better known as SOLAS, which covers a wide range of measures designed to improve the safety of shipping. The Convention is also one of the oldest of its kind: the first verion was adopted in 1941 following the sinking of the Titanic with the loss of more than 1,500 lives. Since then there have been four more versions of SOLAS. The present version was adopted in 1974 and entered into force in 1980. In order to provide an easy reference to all SOLAS requirements applicable from 1 January 2020, this edition presents a consolidated text of the Convention, its Protocols of 1978 and 1988 and all amendments in effect

from that date. Additionally this edition includes Unified Interpretations to SOLAS regulations, which were adopted by the Maritime Safety Committee." -- back cover. This e-book contains the 2013 Revision of RDA: Resource Description and Access, and includes the July 2013 Update. This e-book offers links within the RDA text and the capability of running rudimentary searches of RDA, but please note that this e-book does not have the full range of content or functionality provided by the subscription product RDA Toolkit. Included: A full accumulation of RDA the revision contains a full set of all current RDA instructions. It replaces the previous version of RDA Print as opposed to being an update packet to that version. RDA has gone through many changes since it was first published in 2010. Cataloging practice described by RDA has not changed dramatically due to the changes above, but nearly every page in RDA Print was impacted by the changes, with the result that an RDA Print update packet would require nearly as many pages as the full revision. The most current RDA the revision contains all changes to RDA up to and including the 2013 RDA Update approved by the JSC. Annually the JSC considers proposals to update, enhance and maintain RDA as a current cataloging standard. These updates can and often do change the cataloging process as described by RDA. The JSC also periodically issues changes to RDA to fix errors and to clarify meaning. These changes do not typically change cataloging practice as described by RDA. Reworded RDA the revision includes the reworded version of RDA instructions. To improve readability and comprehension of complex instructions, RDA has been edited and reworded since its original release. The rewording was carried out by the JSC, RDA Copy Editor, and reviewed by the U.S. RDA Test Coordinating Committee. Acclaimed as the standard reference work on the law relating to time charters, this new edition provides a comprehensive treatment of the subject, accessible and useful both to shipping lawyers and to shipowners, charterers, P&I Clubs and other insurers. It provides full coverage of both English and U.S. law, now updated with all the important decisions since the previous edition. The English decisions covered in the new edition include: The Kos (the Supreme Court on the effect of withdrawing a ship with cargo on board); The Athena (nature of off-hire; meaning of 'loss of time'/'time thereby lost'); The Kyla (damage to ship and frustration); The Silver Constellation, The Savina Caylyn and The Rowan (oil company approval of chartered ships); The Captain Stefanos, The Saldanha, The Triton Lark and The Paiwan Wisdom (effects of piracy); The Kildare and The Wren (damages for early termination); The T S Singapore (off-hire where ship going 'towards but not to' the port ordered), and The Lehmann Timber, The Bulk Chile and The Western Moscow (owners' liens) The new edition also features many significant new U.S. decisions, including: Stolt-Nielsen v. Animal Feeds Intl. (Supreme Court rules class-action arbitration not permitted unless parties agree in arbitration agreement); ATHOS I (Circuit Court finds that safe berth provision in charterparty is a warranty and not merely a due diligence obligation); The M/V SAMHO DREAM (arbitrators direct petitioner to post \$14.2M security on respondent's counterclaim) and Maroc Fruit Board v. M/V VINSON (CP arbitration clause incorporated in bill of lading not "signed" or "contained in an exchange of letters or telegrams" under NY Convention). The Kenya Gazette is an official publication of the government of the Republic of Kenya. It is published every week, usually on Friday, with occasional releases of special or supplementary editions within the week. The International Maritime Dangerous Goods Code is the standard guide to all aspects of handling dangerous goods and marine pollutants in sea transport. The Code lays down basic principles: detailed recommendations for individual substances, materials and articles, and a number of recommendations for good operational practice, including advice on terminology, packing, labelling, stowage, segregation and handling, and emergency response action. The Code has undergone many changes over the years, in both format and content, in order to keep up with the rapid expansion of the shipping industry. Amendment 40-20 includes revisions to various sections of the Code and to transport requirements for specific substances. It is mandatory as from 1 June 2022 but may be applied by Administrations in whole or in part on a voluntary basis from 1 January 2021 Special edition of the Federal Register, containing a codification of documents of general applicability and future effect ... with ancillaries. Amendment to 2015 consolidated ed. (ISBN 9780115534027). Amendment consists of loose-leaf pages that replace select pages from the main edition binder 2015 edition - consolidated edition October 2022 (incorporating amendments 1 to 6). Supersedes previous edition Load

lines are painted on the side of a ship to show how low it may safely rest in the water. The 1966 International Convention on Load Lines (ICLL) is administered by the International Maritime Organization, and sets out detailed regulations on the assignment of the freeboard (the vertical distance between the top of the hull and the waterline) and the specific limitations to which different types of ships may be loaded. This publication contains the text of the 1966 Convention, the articles of the 1988 Protocol and amendments, the unified interpretations of the 1966 Convention approved by the Maritime Safety Committee up to December 2004, and the Form of Record conditions of assignment of load lines accepted by the Maritime Safety Committee. This book is an invaluable reference source dealing with the general principles of the switchgear function and discussing topics such as interruption techniques, fault level calculations switching transients and electrical insulation. This is the new edition of the first consolidated ISBD that was published in 2007. The first years of usage have led to interesting and useful corrections and additions. Many cataloguers and practitioners worldwide will welcome this updated first class tool, which is useful and applicable for descriptions of bibliographic resources in any type of catalogue. The Treaty on European Union (TUE) and the Treaty on the Functioning of the European Union (TFEU) are the main treaties of the European Union. The TEU establishes general principles of the European Union, outlines its governance (the Commission, Parliament, and Council), and gives the guidelines on external, foreign and security policy. The TFEU, in turn, provides the detailed basis of the European law, delimiting the scope of the European Union legislative authority and providing guidelines in those areas where EU law operates. This publication contains the consolidated text of the 1972 Convention as amended in 1981, 1987, 1989, 1993 and 2001 -- Foreword. This textbook contains the consolidated versions of the Treaty on the European Union and of the Treaty on the Functioning of the European Union, together with the according annexes and protocols, as they result from the amendments introduced by the Treaty of Lisbon. Furthermore, the book contains the Charter of Fundamental Rights of the European Union proclaimed by the European Parliament, the Council, and the Commission. This handy-sized textbook will serve as a comprehensive and practical working tool for all those who work with European Union law in the English language. The magnitude of government debt, and public sector debt likewise, depends on the coverage of instruments used and available data. To accommodate a fair international comparison of related indicators, the IMF, the OECD and the World Bank have agreed to define various debt measures depending on the coverage or non-coverage of instruments: D1 to D4. This second edition of Mass Metrology: The Newly Defined Kilogram has been thoroughly revised to reflect the recent redefinition of the kilogram in terms of Planck's constant. The necessity of defining the kilogram in terms of physical constants was already underscored in the first edition. However, the kilogram can also be defined in terms of Avogadro's number, using a collection of ions of heavy elements, by the levitation method, or using voltage and watt balances. The book also addresses the concepts of gravitational, inertial and conventional mass, and describes in detail the variation of acceleration due to gravity. Further topics covered in this second edition include: the effect of gravity variations on the reading of electronic balances derived with respect to latitude, altitude and earth topography; the classification of weights by the OIML; and maximum permissible error in different categories of weights prescribed by national and international organizations. The book also discusses group weighing techniques and the use of nanotechnology for the detection of mass differences as small as 10-24 g. Last but not least, readers will find details on the XRCD method for defining the kilogram in terms of Planck's constant. This fourth supplement to the major loose-leaf work Irish Planning Law and Practice lays out a consolidated version of the 2000 Act, incorporating all the amendments made from 15 November 2011 (the last edition) up to September 2017. It includes changes made by: * Electoral, Local Government and Planning and Development Act 2013, Part 8 * Local Government Reform Act 2014, ss 1(8), 5(7) and Sch 2 Part 4. * Urban Regeneration and Housing Act 2015 * Planning and Development (Amendment) Act 2015 * Planning and Development (Amendment) Act 2016 This supplement will be published as Issue 51 of the Irish Planning Law and Practice looseleaf. Supersedes previous consolidated edition The Kenya Gazette is an official publication of the government of the Republic of Kenya. It contains notices of new legislation, notices required to be published by law or policy as well as other announcements that are published for general public information.
